

U. S. AND HUERTA NEAR AGREEMENT

U. S. PROPOSALS NEARLY SAME
AS THOSE AGREED UPON BY
MEXICAN DELEGATES.

U. S. ASKS NO INDEMNITY

No Names Have as Yet Been Agreed
Upon for Members of New Provisional
Governing Body.

(Associated Press.)

Niagara Falls, Can., June 9.—The mediators today submitted to the Mexican delegates the counter proposals of the American government offers for the pacification of Mexico. The American plan, with a few modifications, is the same as that which the mediators and Mexican delegation recently agreed upon and which Dictator Huerta has approved.

In it is provided a manner in which the executive power may be transferred from the present regime in Mexico City to the new provisional government, which shall in a few months conduct the elections for a new president of Mexico, as well as for a vice president and members of a new Mexican congress.

No names have been agreed upon between the Mexican and American delegates for the positions of the new provisional president or the members of his cabinet. Neither side has yet made its nominations.

Within a day or two the Mexican and American plans will be diverted into one and a full conference will be called. Should there be any new suggestions from the constitutionalists the United States will endeavor to arrive at a compromise with them and when an agreement is reached the result will be placed before the mediators and the Huerta delegates.

Gen. Carranza's latest note, already dispatched to Washington, will be forwarded by Rafael Zubara. No answer from the rebels which does not declare for an immediate armistice will permit them to enter the negotiations for peace. The mediators insist on this point.

The rebels claim that their military organizations can not be disrupted for even a short period without considerable danger of their chiefs losing control of their troops.

A compromise is believed to be in sight whereby peace plans will be taken up with the rebels separately from the mediation conference and as a result no protocol will be signed during the next fortnight. The rebels will undoubtedly have a voice in the selection of the new provisional president and two of their number may occupy the principal portfolios in the new cabinet.

Mexico will not be asked by the United States to pay a war indemnity. President Wilson will be content to have a stable government succeed Huerta.

The intimation that the United States will not demand reparation for the losses sustained at Vera Cruz or expect to be recompensed for the enormous expenditure already made in the attempt to pacify Mexico was given the Mexican delegates soon after the conference opened and this has made it easy for the opposing delegates to meet harmoniously.

Washington, June 9.—General Carranza will address a note to the A-B-C mediators today in which he will announce that he is sending delegates to the mediation conference. The instructions of these envoys will preclude their acceptance of any protocol or other agreement which provides for the settlement of Mexico's internal affairs.

Huerta May Quit Soon.
Vera Cruz, June 9.—The announcement of the suspension of the proposed blockade of Tampico by Mexican gunboats was accompanied by the revival here of reports of Huerta's early resignation—"possibly before Wednesday night," according to some newspapers.

U. S. Accepts.
Niagara Falls, Ontario, June 9.—The announcement that the Huerta government at Mexico City had countermanded the order for the blockade of the port of Tampico was scarcely of greater significance here than the disclosure that the United States government had accepted in principle the plan of pacification for Mexico drawn by the American and Mexican delegates here.

Though no formal notice was given by the United States delegates that the plan had been agreed to by their government, they presented views on the subject of the pacification scheme that indicated that President Wilson and Secretary Bryan had no fundamental objections to it, but in fact, accepted the proposals submitted to them for scrutiny.

These views were in writing. They contemplate the establishment at the earliest date practicable of a new provisional government in Mexico City which would conduct general elections for a permanent government.

To Draft Protocol.
A full conference of all delegates and mediators is planned for Wednesday. This is for the formal consideration and drafting of the protocol.

The mediators announced they would make public all the correspondence that has passed between them and General Carranza or his agents. It is understood that the mediators feel that they have allowed a long enough time to General Carranza to make reply to the note which they dis-

patched last Tuesday to Rafael Zubara, constitutionalist representative in Washington.

A statement issued by the Mexican delegates to the peace conference shows that the order of the Huerta government rescinding the declaration of blockade was issued as a result of action taken by the delegates.

Huerta Recalls Ships.

Washington, June 9.—Rear Admiral Badger cabled the navy department that the Mexican federal gunboats Bravo and Zaragoza left Tampico for Puerto Mexico. This followed the order of General Huerta earlier in the day that the blockade had been terminated.

A dispatch from Admiral Mayo stated that the commander of the Bravo on arriving off Tampico called on Admiral Mayo aboard the Minnesota and informed the American commander that he had been ordered to block the port. Admiral Mayo answered that he had been ordered to prevent the blockade. Whereupon the Mexican departed.

The opinion of international lawyers is that from a technical point of view what Admiral Mayo told the Mexicans was as significant as a broadside from his ships would have been, but would not have the same regrettable effects.

It was learned on unquestionable authority that the withdrawal of the blockading squadron from Tampico means that the whole subject involved will be discussed at Niagara Falls. The settlement of the general Mexican question there, as now understood, will involve, along with a great mass of other incidents of varying importance, the alleged violation of the American armistice with General Huerta in letting the Antilla leave New York and permitting the Sunshine to unload her arms at Tampico. While the point has arisen since the blockade was lifted it is supposed that the language of Admiral Mayo in talking to General Huerta's officers will also take an important place in the protracted conversations at the Falls.

GREAT INTEREST IN OAK PARK-DIXON GAME

BIG CROWD WILL WITNESS TEST BETWEEN STRONG HIGH SCHOOL TEAMS.

The Dixon union high school baseball team will meet the supreme test of three years of excellent playing on Friday afternoon at Lincoln park, the new home of the City league, when they will play the fast Oak Park high school team. As a result of the agreement of the Oak Parkers to come here for a contest now the interest of the followers of the Dixon team has been aroused to a fever heat and undoubtedly a very large gathering will attend the game Friday afternoon.

The strongest possible combination will be put on the field by Coach Valle and Ackert will be in the box for the locals, as a result of which the followers of the Dixon team can see nothing but a victory for the home boys.

BRITAINS WATCHING AMERICAN MANAGER

HAS OPPORTUNITY TO MAKE RECORD ON GREAT EASTERN RAILWAY SYSTEM.

INVENT A FLYING TRAIN

Birmingham Manufacturer Says that His Train Will Run Five Hundred Miles an Hour.
(Associated Press.)

London, Eng., June 8.—The railroad world here is watching with much interest the efforts of H. W. Thornton, the American general manager of the Great Eastern Railroad to speed up the services of that line. That much of the ill feeling which greeted his appointment has worn away is indicated by the fact that he has been appointed a member of the General Managers Conference, the first time that anyone not a British subject has been elected to that organization. Thanks to the efforts of the new general manager the towns served by the Great Eastern are now getting their Sunday papers many hours sooner than in the past.

Railway experts predict that Thornton will have no difficulty in bettering the times of the express trains of rival lines, as the Great Eastern does not have to surmount the same gradients as its competitors. One of the curious anomalies of British railways is the great difference in average train speed on the various lines. Physical limitations account for much of the low speed on the southern lines, but the gradients and length of non-stop runs on the Great Eastern will give the American expert an excellent chance to make some express train records.

Invents New Train.

While experts continue to discuss the practicability of M. Bachelet's aerially suspended railway, J. Esson, a Birmingham manufacturer, announces that he has invented a train that will travel 600 miles an hour, 200 miles an hour faster than the Bachelet train.

The latest invention is of the monorail type, but has one of the Bachelet features, inasmuch as it will fly, after attaining a certain speed. It does not rely for levitation on magnetic repulsion, but on the principles of aviation. It will be a hybrid of a street car and aeroplane with an overhead trolley and propellers. The model is driven by electricity. The inventor claims that it can attain a speed of 500 miles an hour with ease and safety and he expects to give a demonstration soon with a working model.

The train is connected with the cable at either extremity by rods terminating in flanged wheels, these rods serving to convey current to motors fore and aft. The inventor declares that the train is so designed that when it has attained a sufficient velocity it will lift itself from the velocity buffer springs and fly. This he claims will mean a huge saving in maintenance charges.

N. D. ALUMNI HOLDS SUCCESSFUL BANQUET

Y. M. C. A. GYMNASIUM WAS THE SCENE OF REUNION OF NORTH DIXON GRADUATES.

DELICIOUS SPREAD WAS ENJOYED

Speeches Were Feature of Evening's Program and Class of '14 Was Welcomed In.

The Y. M. C. A. gymnasium was a scene of festivities last night when the North Dixon high school alumni gathered in force of nearly one hundred to celebrate in anniversary. The young ladies of Sec. Bailey's S. S. class of the M. E. church served a delicious banquet. Musical Director Mrs. Muriel Phelps with the North Dixon high school Glee club of girls gave several pleasing vocal numbers and the M. E. church orchestra gave some sweet instrumental music which blended with the animated voices in conversation and laughter of the reunited and present time graduates gave a pleasing effect. The class of 1914 was present and heartily enjoyed the occasion.

Attorney John E. Erwin was toastmaster and in a happy frame of mind by quip and quirk cajoled many of the otherwise reticent members to the floor for a speech, the responses of Vice President Frank Robinson, that of Sherwood Dixon of the class of 1914, and Messrs. Ralph Bates, Dan McKinney, Ira Lewis and Miss Anna Todd were particularly timely and fitting. Charles Hennessy, alumnus and representative of the carter automobile firm of Chicago, was present and responded to a toast with much spirit and happy thought.

Superintendent Baldwin, who is retiring from the head of the North Dixon school, was voted an honorary member of the association. In response to request, Mr. Baldwin spoke interestingly in reminiscence of the school days and for the good of N. D. H. S. Alumni.

Many thanks are hereby expressed to the music director, Mrs. Phelps, and the young ladies Glee club, who entertained so excellently with vocal numbers. The officers appointed follow:

President—Ralph Bates.
Vice President—Dan McKinney.
Corresponding Secretary—Miss Bess Decker.
Recording Secretary—Miss Olive Rattenberger.
Treasurer—Everett Dutcher.

WOULD TURN WIRE PILE INTO PARK

WILL PETITION COUNCIL TO PURCHASE WIRE PILE LOT FOR CITY PARK PURPOSES.

INITIATIVE AND REFERENDUM

If Council Refuses to Pass Ordinance for Condemnation, Intention is to Put Matter to a Vote.

The "East First Street Improvement Club," composed mainly of persons who own property or conduct businesses along East First street and vicinity, are to take some decisive steps in their campaign to have a lot on the corner of First street and Crawford avenue, covered with rusty wire, etc., cleaned up, and their intention now is to have the city buy the lot and turn it into a small city park.

There is a feeling that the corner would make an ideal place for a city park, being very close to the business center of the city. The fact that it is near some mills and factories is also another of their arguments, for they declare that the park would be a great boon to factory help, who could use it as a resting place and recreation grounds at noon hours, etc. It would make a beautiful play grounds for children also and could be purchased and turned into a park at but small expense to the city.

The petition will have to have 415 signers, or one-fourth of the total vote for mayor.

To the Honorable Mayor and Council of the City of Dixon, Illinois:

The undersigned electors of the City of Dixon, Illinois, hereby submit the attached proposed Ordinance entitled "An Ordinance providing for the acquiring, by condemnation, the Easterly Two-Thirds of Lot No. Nine (9) in Block No. Three (3) in the Original Town (now City) of Dixon, in the County of Lee and State of Illinois, for the purpose of establishing and maintaining thereon a public park and for the issue of bonds to pay for the same," and we hereby request you to pass said Ordinance and if you do not pass said Ordinance within 30 days after the filing of this petition we hereby request that said Ordinance be submitted to a vote of the electors of said City, as provided by law.

The ordinance provides for the purchase of the lot by condemnation proceedings and provides a bond issue of \$2,500 to cover the cost.

The petitioners will take advantage of the initiative and referendum and if the council does not pass the ordinance within thirty days they are required by law to submit it to a vote of the people, who will decide whether or not the city shall purchase the lot for park purposes.

HARVESTER FIRM LOSES SUIT

U. S. Supreme Court Affirms Decree Ousting It From Missouri.

Washington, June 9.—The Supreme court affirmed the decree of the Missouri supreme court ousting the International Harvester Company of America from the state and fining it \$25,000 for violation of the state anti-trust law.

Washington, June 9.—Fines imposed upon the International Harvester company by Kentucky courts for violation of the anti-trust and anti-pooling laws of that state were set aside by the United States Supreme court. The trust was fined \$5,000 by each of a half dozen county courts of Kentucky and the fines were upheld by the court of appeals of that state. It was alleged by Kentucky officials that the International Harvester Company of America, which was defendant in these cases, had increased price by pooling its business with the Deering Harvester company, the Milwaukee Harvester company and others.

FEARED DISEASE, DIES

Chicago Woman Commits Suicide in Los Angeles.

Breaking of Family Ties Follows Her Ordeal in the San Francisco Earthquake.

Los Angeles, Cal., June 9.—Death by poison, taken while in her apartments here, brought to an end the troubled life of Mrs. Annie G. Purcell, wife of Charles A. Purcell, wealthy Chicago malster and daughter of the late Dr. William C. Gray, for years editor of the Interior. With her suicide was written the last chapter of a tragedy of the San Francisco earthquake, one which had estranged Mrs. Purcell from her husband, her mother and her children and made her a wanderer for eight years. A will left in a Los Angeles vault told the story of the troubles with her husband. It left him only one dollar of an estate which he valued at \$5,000, the rest going to Mrs. Hilma Purcell, his daughter-in-law.

A note penned before Mrs. Purcell's death ascribed a cause for her suicide.

This note read: "The trouble that killed my father has at least reached me. It is only a question of a long, lingering death, or a quick one, and I prefer to go at once."

The note was signed by Mrs. Purcell.

Doctor Gray died of cancer, but it is not believed that fear of a similar death really drove his daughter to kill herself.

Here is the explanation that her friends give:

Eight years ago Mrs. Purcell was supremely happy. She loved her husband and her two children. Her mother, widow of Doctor Gray, editor of the Interior, one of the leading Presbyterian publications, was as dear to her as her husband and their children.

Then in 1906 Mrs. Purcell went through the horrors of the San Francisco earthquake. She passed through it unharmed, but when she returned to Chicago there was a change. Instead of returning to the family home, at that time at 508 Forest avenue, Oak Park, Mrs. Purcell went to a hotel. She cut herself off completely both from her husband and her mother and soon afterward threatened divorce proceedings against her husband. No divorce suit was filed, however. Instead there was an agreement reached outside of the courts. Mrs. Purcell obtained \$5,000 cash and \$40,000 in trust in lieu of alimony.

Another Frightful Cut in Piano Prices

Piano Buyers Have Only This Week to Take Advantage of the Greatest Piano Offer Ever Known in Dixon. Facts Prove It. Come in and be Convinced

Every Piano and Player Piano will be cleared from our floors by closing time Saturday night. You cannot come in later and secure these prices; now is the time. We have a plan by which you purchase a new piano for \$95. Ask about it.

Every instrument in our salesroom must and will be sold this week. We sold more pianos the past week than ever before in the history of our business. Our store filled daily with shrewd piano buyers, saving many hard earned dollars; let us do the same for you. Buyers come for miles around to reap the benefit of the low prices we are making. This week will be greater still, because we have just received another shipment of beautiful pianos which will be sold to the first buyers at prices lower than you ever hoped for. The price of every instrument marked in plain figures. In case you can't come during the day, come in the evening. We have arranged for extra salesmen to wait on you. No matter what you hear or think, remember it pays to investigate. We say to every skeptic, every person who does not believe in sales—call at our store, and look around for five minutes, and you'll be convinced that this is an opportunity of a lifetime for piano buyers.

These pianos will be sold in this frightful smashing of piano prices. Pianos that are known and used the world over. Many of the great musicians use them; nothing better under the sun: Kraich & Bach, Lester, Merriman, Bell Bros., Kensington, Cote Bradley.

Prices that completely overshadow anything ever known in this city—nothing like them before; nothing like them after this sale closes. New and used upright pianos while they last.

This used Piano \$145

Used Player Piano \$395.

Mr. Cash Buyer: You have been waiting a long time to make your money talk. Come and see what your money will do.

Mr. Time Buyer: Any terms you want. Don't wait to bring all the money. Grab a few dollars, and pay the balance at your convenience.

A liberal allowance for your old instrument should you have one to exchange.

PREPARE FOR THE FUTURE.

Sterling's township high school, according to an article appearing Saturday in the Sterling Gazette, will next year have an even more complete line of auxiliary studies in the line of manual training, business training, domestic science, etc. Arrangements have even been made for the high school boys who wish to take practical courses in industrial vocation to spend several hours each week in the shops and factories of Sterling, where they will get practical working knowledge of the trades they are studying and which will be a valuable aid to their work in their own shops in the high school.

Dixon will probably never have schools that are thus prepared to turn out young men and women ready for the actual battle of life until the voters of the school districts on both sides of the river here can get together and give us a union city high school or a township high school. But that day will come, for intelligent people will not go on year after year for many more decades paying taxes to support two high schools when only a little more than half of the money would support one that would be more complete, more efficient and give the students of this and nearby townships a much better institution in which to complete their learning.

The Telegraph wants the boys and girls of Dixon to have the very best schooling that money can afford them. Schooling is something that economy should not be allowed to retard unreasonably. The children of today are the hope of the nation and too much care cannot be given their development, physically, mentally and morally.

PAY YOUR POLL TAX.

A good many Dixon township voters who, under the present law, come in under the poll tax law, and are required to pay the poll tax. Some of them feel that the payment is unnecessary, inasmuch as the practice is obsolete, but they must realize that the law is active and in force and that Dixon township failed to vote it out at the last election. The officers of the township are duty bound to enforce the collection of the poll tax, no matter how much they sympathize with the objectors, and they have no alternative.

The poll tax is small. It must be collected and it may be necessary for the officials to take legal steps. Do not put them to the expense. Pay the tax this time and vote it out next year.

SUGAR.

During the progress of the campaign which terminated in the election of Woodrow Wilson as president, the one thing that the democratic party harped upon was free sugar. They declared they would cheapen the cost of living by giving the workman a free breakfast table. In vain, recites the Peoria Star, it was shown that tariff on sugar increased the cost to the individual only 65 cents a year, and that without this tariff the best sugar factories would close. The protest was whistled down the wind. Wilson was elected, and proceeded with his reform schemes. The tariff on sugar was taken off, but the price was not cheapened to the consumer, and now the deficit is running \$500,000 a day, and the democratic leaders are so alarmed that they propose to put the tariff back to a cent a pound at least. Thus another of the visionary reforms of Wilson goes up in smoke.

OUR CRIMINAL LAW.

Ex-President Taft has spent all his life nearly on the bench, and in positions that require knowledge of the practices of courts. He says that if the special privileges of a lawyer to withhold the truth in a criminal case were taken away the profession would go out of business in a week.

The Clinton Herald opines that the fact that Mr. McGinnis, recent candidate for governor, is a Presbyterian, pales into nothingness beside the disclosure that Lieut. Gov. Barratt O'Hare of Illinois is a Methodist.

THENand.....NOW

(By the Associated Press)

"Home, Sweet Home" was being sung for the first time just 91 years ago. The song came from the operatic stage. The author, John Howard Payne, posed as a dramatic critic in New York when he was only 14 years of age; before maturity he was successful on the stage; then came twenty years of varying success abroad as an actor, manager and playwright. Pressed for funds, he sold the opera "Clari" for \$250. In this was "Home Sweet Home." Payne had written it, recalling his early cottage home at East Hampton, N. Y. The opera had a phenomenal run and the song then brought a fortune to its publishers. Payne never received another cent for it. He later became United States consul at Tunis, where he died.

Today is the 123rd anniversary of John Howard Payne's birth. His song is known throughout the English-speaking world and it rises above all else, including the 60 plays and operas which Payne wrote, as a monument to his memory. Surviving the roads of rag-time, the ballad is as popular as ever for knitting home ties. It is said to have had a more universal circulation than any song ever written. Payne's body, originally buried at Tunis, was disinterred after many years and brought to the United States for reinterment in Oak Hill cemetery at Washington, in 1883. The remains were placed beneath an appropriate monument which was unveiled while a great chorus sang, "Home, Sweet Home."

THE BIRTHDAY GIFT.

Last week I had a birthday, and my father said to me, "I'll give you anything you want. Now, son, what shall it be? How would you like a phonograph?" But I just answered "No, I'd rather have a puppy, 'cause a puppy loves you so!"

So then he laughed and said that he would try and get a pup. And on my birthday morning, the minute I woke up, the fattest little furry dog was sitting on my bed! There's nothing in the world that I'd rather had instead.

He follows me around all day and sleeps with me at night; He loves to bark at me and growl and then pretend to bite. His little legs are wobbly, and he can't run fast, but oh! I'm glad I've got that puppy, 'cause a puppy loves me so!

—Our Dumb Animals.

WIT AND NEAR WIT.

He—They say, dear, that people who live together in time get to look exactly alike.

She—Then you may consider my refusal final.

COMMERCE BODY UPHELD BY COURT

Supreme Tribunal Holds Commerce Rate Making Power Supersedes All Others.

DECISION IS VERY SWEEPING

Believed to Be Most Thorough Declaration in Favor of Government Authority Yet Made by the Supreme Court.

Washington, June 9.—That the rate making power of the interstate commerce commission takes precedence over the jurisdiction of state commissions in situations where the reasonableness of interstate rates is called into question was shown when the U. S. Supreme court handed down a decision upholding the efforts of shippers of Shreveport, La., to prevent alleged discrimination against them by the Texas railroad commission in favor of Houston and Dallas, Tex.

The decision is believed to be one of the most sweeping declarations in favor of the dominant authority of the federal government that the Supreme court has yet made.

The interstate commerce commission found that class and other rates from Shreveport to Texas points were unreasonable and ordered rates to be equalized so that Shreveport would not be discriminated against in favor of Dallas and Houston.

Many Ways of Conforming to Order.

Justice Hughes said there were several ways of conforming to the commission's order. Reviewing the objection of the railroads that the commission could not reduce intra-state rates to conform with interstate rates, Justice Hughes said the power of congress was adequate to meet all the emergencies that arise out of local interference with national intercourse.

Justice Hughes said that congress, not the state, might prescribe the rule when state and national interests conflict.

Congress is entitled to keep open the highways of interstate commerce in the interest of fair treatment to all persons," said Justice Hughes.

He indicated that the government must control rates in the interest of interstate commerce. Whether congress reduces interstate rates to conform with interstate rates was not material, the court said.

The ruling in the Los Angeles car shunting case is of vast importance to shippers, as it has been estimated that if the railroads exacted similar charges in every large city of the country it would cost shippers between two hundred and fifty and three hundred thousand dollars a year.

The court upheld the interstate commerce commission's order forbidding railroads to discriminate against Los Angeles by charging for the delivery of cars there.

F. P. Grogson, traffic expert of the Associated Jobbers of Los Angeles, said that the decision of the Supreme court meant that the railroads would have to refund to the shippers and consignees of Los Angeles between one and two million dollars already collected illegally as switching charges.

Other Decisions Given.

Other decisions were: Refused an application for review of the decision fining the Grand Rapids & Indiana Railway company for granting rebates to lumber companies.

Refused to set aside sales of Indian lands on the White Earth, Minnesota, reservation, holding that an Indian with any white blood at all was a "mixed blood."

Upheld the constitutionality of a Virginia law requiring companies mining coal or manufacturing iron or

MAY LET WOMEN DIE

Noted Britons Would Let Militants Starve.

Well-Known Clergymen of England Are Angered by Outrages Committed by Suffragettes.

London, June 9.—"Let them die" is becoming a rather popular slogan in connection with the "hunger striking" suffragists since the public has become so profoundly resentful of the actions of the militant women.

It was reported that the government had decided to take a step in this direction by introducing legislation to indemnify the prison authorities against the consequences of allowing suffragists to starve themselves to death while in prison.

The Evening Standard interviewed a number of prominent people, including clergymen, on the subject, and all of the latter who are quoted by the newspaper express themselves in favor of the proposal.

Father Bernard Vaughan, brother of the late Cardinal Vaughan, replied:

"There would be nothing ethically wrong in letting them die. Let them start at once and make up for lost time."

Rev. Arthur Waldron, vicar of St. Matthew's, Brixton, said:

"If the women refuse food they should be allowed to die."

Rev. Richard Free, vicar of St. Clement's, Fulham, replied:

"I think the suggestion very good. I have advocated it for many months."

Several of those interviewed denounced impartially both forcible feeding and the "hunger strike," while Willoughby Dickinson, a liberal member of parliament; Lady Cowdray and Lady Muir-Mackenzie dismissed the suggestion as preposterous.

The activity of the militant suffragists was confined to disturbances at the horse show and chalking "Votes for women" all over the interior of St. Edmund's church at Northampton. King George and Queen Mary were present at the horse show at the time of the demonstration.

steel to pay employees at least monthly in money, and making it unlawful to issue script unless redeemable in money at its face value.

The Florida East Coast railway was permitted for the present to charge a rate on Florida fruit and vegetables based upon the large expenditure of extending the road over sea to Key West.

This NEW HOOSIER for ONLY \$1! Will another day end this great sale? The public alone can answer

THE IMMEDIATE CLOSING of this sale tomorrow by the number of women who enroll on this Hoosier Plan. If all the women who need Hoosiers should come tomorrow, our allotment would be taken before the night and the sale would close. This has happened in many similar sales throughout the country. On the other hand, if women delay, the sale may last all week. This too has happened. Which now is best for you—to delay and take the chances of missing this opportunity or to come down tomorrow and find out about this cabinet so you can decide before it is too late?

It cannot take you ten minutes to decide, once for all, whether you intend to purchase now or later—And you are deciding, remember, whether or not you will save miles of unnecessary steps you now take.

But unless you at once decide, you may decide too late to own this greatest of all Hoosier cabinets on this liberal Hoosier Plan. 700,000 women already have Hoosiers. Thousands are buying this new Hoosier every week. You should without fail grasp your opportunity and see this cabinet tomorrow.

You may choose between the celebrated "White Beauty," whose picture is shown here, and one of the other Hoosiers, finished inside in oak.

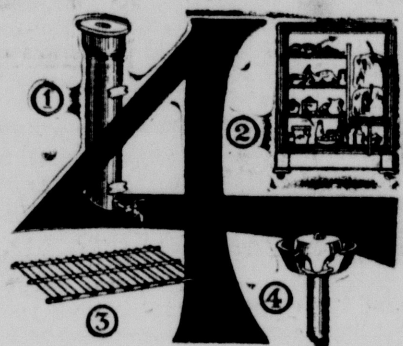

The terms of the Hoosier Plan are these:

1. \$1 puts the cabinet you choose in your home.
2. \$1 weekly quickly pays for it.
3. The Low Cash Price fixed by the factory prevails strictly.
4. No interest. No extra fees.
5. This sale is under direct supervision of the Hoosier Company.
6. Your money back if you are not delighted with your Hoosier.

Only those women who grasp this opportunity tomorrow can be sure of getting one of these cabinets on this liberal Hoosier Plan. You realize of course that these terms could not be offered except on a very limited number of cabinets.

After this sale—

1. The "Hoosier Plan" terms will be withdrawn.
2. Our regular furniture terms will then prevail.

These four points alone should make you buy an

AUTOMATIC REFRIGERATOR

1. "Built in" Water Cooler—Found only in the Automatic. It is a porcelain-lined tube of cast iron, with openings only at top and faucet. Impurities or food flavors can not reach the water. Cools the drinking water with the same ice that cools the food.

2. Automatic Circulation—The arrows show the current of cool, sweet air constantly circulating through the food chambers of the Automatic. You can keep any kind of food in the Automatic at the same time—even fish or onions and cream or butter—and there

will be no mixing of flavors.

3. Electrically Welded Wire Shelves—The most handsome, durable, sanitary and room-giving shelves to be had in a refrigerator. The electric welding makes them literally one piece. Can be adjusted to any height.

4. Non-Clogging Trap—No refrigerator can be sanitary unless the trap does its work unflinchingly. The trap of the Automatic Refrigerator has gone through the test of 20 years' service, and has never clogged yet.

Despite its many advantages the Automatic Refrigerator is moderate in price. More than that, it is so saving of ice, that it pays for the extra it costs beyond the price of a cheap, un-

sanitary refrigerator, in a single season.

Let us tell you more about this wonderful refrigerator.

Quill of the Working Boys' home brought about the reunion after a fight against John Hutton, who is alleged to have kept O'Brien a captive on his farm, and had demanded \$230 for his release, holding that amount due as board. The boy was greeted by his mother, two sisters, Margaret and Josephine, and a brother, George. All were in tears. O'Brien told the court he had to work from 4:30 in the morning until eight o'clock at night plowing the fields, doing a man's work. All the wages he got in nine years was \$1.50, he said.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

USE IT LIKE A COLD CREAM AND DRY ECZEMA ERUPTIONS RIGHT UP.

The moment you apply bold-sulphur to an itching or broken out skin the itching stops and healing begins, says a renowned dermatologist.
 This remarkable sulphur made into a thick cream effects such prompt relief, even in aggravated Eczema, that it is a never-ending source of amazement to physicians.

For many years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties and nothing has ever been found to take its place in relieving irritable and inflammatory affections of the skin. While not always establishing a permanent cure, yet, in every instance, it immediately subdues the itching irritation and heals the Eczema right up and it is often years later before any eruption again manifests itself.

Any good pharmacist will supply an ounce of bold-sulphur cream, which should be applied to the affected parts like the ordinary cold creams. It isn't unpleasant and the prompt relief afforded is very welcome, particularly when the Eczema is accompanied with torturous itching.

Total grain	2,369,000,000	264,000,000

Washington, June 9.—The wheat crop in the United States this year will be 900,000,000 bushels, according to the government crop report for June. It will be the largest crop ever raised, 137,000,000 bushels more than the immense yield from the harvest last year. Then a new record for wheat growing was set.

The total of wheat, oats, barley and rye crops is 2,369,000,000 bushels, the largest amount ever raised in this country, and 264,000,000 bushels, or 12.5 per cent, more than was raised last year. The winter wheat crop of 638,000,000 bushels is 115,000,000 bushels in excess of the bumper yield of last year.

Harvest Is Begun.
 This crop is now being harvested. Farmers are in the fields in Texas, Oklahoma and a few points in Kansas, Missouri and southern Illinois. With good weather this week it is expected that harvesting will be general over a large part of the winter wheat belt by Saturday.

Kansas comes to the front with 148,000,000 bushels of winter wheat which is practically made. This is 48,000,000 bushels more than that state ever raised in its best year. There is so much wheat that experts who have been over it say there never was anything like it. The state is wheat from one end to the other. Some private estimates place the crop at 180,000,000 bushels and higher. The other states west of the Missouri river also have been fortunate and have record yields.

Huge Crop Northwest.
 In the northwest the three states have more than an average crop, 195,600,000 bushels, or 16,600,000 bushels more than the harvest last year.

The promise for oats is for an average yield, the estimate being 1,216,000,000 bushels, or 94,000,000 bushels in excess of last year. Barley is to be 206,000,000 bushels and rye 47,000,000 bushels in excess of last year.

In no year have the big crops meant so much to the country as does the winter wheat crop this year, especially to the states west of the Missouri river. They lost their corn crop last year and have been hard up. The farmers there will now be in a position to pay their debts and have a little money to spend.

Seek Harvest Hands.
 The cry for help is going out, and every effort is being put forth to furnish harvest hands. A winter wheat crop of 638,000,000 bushels is 115,000,000 bushels more than harvested last year, and the largest ever indicated. It is almost 200,000,000 bushels more than the average for the last five years.
